

# National Ocean Acidification Training Workshop

In an effort to support Malaysia in achieving the Sustainable Development Goal 14: Life below water, the national workshop aims to develop and strengthen its capacity for ocean acidification monitoring and research; establish an ocean acidification network among scientists, institutions, and agencies in Malaysia; recommend, and explore the possibility of joint long-term monitoring and/or research program(s) on the impact of OA in Malaysia.

**20-22 September 2022**

at Centre for Marine & Coastal Studies (CEMACS),  
Universiti Sains Malaysia (USM), Penang, Malaysia

## Training Content

- Coral reefs and ocean acidification (OA)
- Experimental design & instrumentation in OA research
- Impacts of OA on the aquaculture industry
- Potential socioeconomic impacts of OA

## Invited speakers

Zulfigar Yasin (CEMACS, USM)  
Aileen Tan Shau Hwai (CEMACS, USM)  
Anisah Lee Abdullah (USM)  
Nor Hasni Osman (Universiti Utara Malaysia)  
Somkiat Khokiattiwong (IOC/WESTPAC)  
Lalita Putchim (DMCR, Thailand)  
Chalermrat Sangmanee (PMBC, Thailand)

THE PENANG MUSEUM AND ART GALLERY IN GEORGE TOWN

Organizers will cover the training workshop materials, accommodation (3 days, 2 nights) and meals for the whole duration of the program.

**Register now**

**Deadline: 30 August 2022**

Limited slots available to register,
